

# Indepth IT Solutions

## SAVE +/- 40 - 50% on your phone bill!

Move your home (or business) phone number(s) / line(s) to a **VoIP solution** (Voice calls over Internet) and save **monthly** on your **Line rental costs & Call costs**.

### Cost comparison

Cost Description	Telkom	VoIP - (1 line, 2 lines if you get a portable phone bundle)
Line Rental x 1 - (Monthly Rental Cost)	R 210 +	<b>R 49</b> - ( <i>Home or Business</i> )
Call Rates	More expensive than VoIP calls.	Very low to all networks
Keep my number (number porting / transfer)		<b>R 150</b> - ( <i>Once off</i> )
Phone Cost - ( <i>Pricy, but pays itself off after a few months due to rental / call cost savings</i> )		Starting from <b>R 1012</b> ( <i>Once off</i> ). See page 3 for some of the VoIP phones available

We earn commission from your signup (**at no cost to you**), and are always here to help you, even after install .

For further assistance, help and or VoIP / IT advice feel free to contact us.

## Further information

- **Internet Requirements:** A reliable (always on) internet connection (e.g. Fibre, ADSL, 5G, LTE/4G, 3G, WiFi or WiMAX).
- **Payment options to choose between:** Debit order (post paid) or Prepaid (advance paid). The prepaid option allows you to login to a backend and use your credit card to purchase more airtime / line rental credit and associate it to your package.
- **Airtime/credit Balance check:** You can dial **125** from your VoIP line at any time to check the available airtime balance. This is a free call.
- **Call Rates - (Peak – Monday to Friday 7am to 8pm. Off-Peak – all other times.)**

- We offer the choice between two basic and easy to understand VoIP call rate packages.

- **Package 1**

(All rates are quoted per-minute. Calls charged in 30-second increments with a minimum of 60 seconds)

Ideal for residential/companies whose users make long calls. Companies that sell solutions or services would benefit from the lower VoIP call rates charged. The calls are charged in

**30-second increments with a minimum of 60 seconds.**

Destination	Peak VAT Incl.	Peak VAT Excl.	Off-Peak VAT Incl.	Off-Peak VAT Excl.
On Network	R 0.15	R 0.13	R 0.15	R 0.13
National	R 0.28	R 0.24	R 0.28	R 0.24
Mobile	R 0.49	R 0.43	R 0.49	R 0.43

To see our **international** call rates please visit our VoIP web page - [indepth-it.co.za/voip](http://indepth-it.co.za/voip)

- **Package 2**

(All rates are quoted per-minute. Calls charged per second from the first second)

Would suit the needs of companies whose agents make shorter calls, such as Security companies or Call Centres. The rates are slightly higher than those of Package 1. **The per second billing** could, however, bring down your overall call costs.

- Phone prices and stock availability are subject to change by our suppliers.
- It's unlikely to happen, but call rates are also subject to change.
- We are a reseller and merely assist you in getting and maintaining your line. We are not the actual VoIP company.
- This document is subject to changes and newer versions are constantly sent out, as such information is subject to change and pricing cannot be held to a version of this document. Clients are quoted when they sign up and the latest pricing reflects then.
- We take no responsibility for a client not reading this document or the others they should read / questions they should ask before signing up. If you have ADSL you will need to ask further questions as your line rental should be removed and you might need to move to "naked ADSL (ADSL without line rental and no telephone)" with another ISP to save on the R210 line rental. Or stop being a Telkom customer for a short while to be able to get that deal. Contact us to request info from our VoIP provider if need be.
- Do not cancel your Telkom line yourself if you wish to keep your number, as the VoIP company needs to port it first (should you wish to keep your number).
